

Software License Agreement

1. Copyright

The copyright of this ATS Method Program is belongs to the Corporation Society of ATS Method and Toyo Institute of Food Technology (our corporation).

2. Use of Software

This software is distributed free of charge, and anyone who meets the specified conditions (described later) can use it.

3. Software Modification, Duplication, and Redistribution

You can use this software after modifying it. Subsequently, you may copy the modified version and redistribute it. However, please do not delete only the name "ATS Method."

4. Prohibition of Commercial Use

This software, including the modified ones, cannot be used for commercial purposes including sales, renting, introduction and setting agency.

5. Prohibition of Use

We do not accept any software usage that violates laws, ordinances, public orders, and morals, or that causes inconvenience to others.

6. Disclaimer

Our corporation has verified the operation of this software in our environment only. Hence, we do not guarantee the operation of this software in other environments. Our corporation shall not be liable for any damage caused by using this software, whether the damage is primary or secondary.

7. Register

When downloading the software, please enter your name, attribution, and email address in the dedicated form on our website (URL*). Simultaneously, if you check the "update request" column, we will send you the latest file when updating. However, if you do not contact us, we will not send you the latest file.

8. Impressions, Requests, Bugs

If you have any comments, requests, or bug report, please let us know using the inquiry

form on our website (<https://www.shokuken.or.jp/contact/form.html>). Accordingly, we will respond to the requests and provide bug fixes as much as possible. However, please note that the deadline is until September 2025, and we may not be able to respond thereafter because of unexpected circumstances.

9. Other

If you do not accept the terms and conditions contained in this agreement, you cannot use this software.
